WE ARE ILABMALTA

A small experienced team of software developers and support officers, some of us with over 20 years experience developing small to large tailor made software systems. We have developed web and client server applications with over 700 users, mostly administrative software systems such as Project Management and Monitoring, Fleet Management, Stock Control and Stock Usage Optimisation. Our main technical areas of expertise are .NET, Microsoft SQL Server, Powerbuilder, FoxPro, mySQL and Python. All these years of experience ensure that all our software is robust, self-healing and self administered. But we do not need to tell you that, let our clients tell you!
